

CURVED
SCREEN

FLAT
SCREEN

THICKNESS
HARDNESS

THE HIGHEST LEVEL

of damage protection.

AntiCRASH PRO

Protection that increases strength of the screen up to even 5 times.

The improved TPU film guarantees perfect transparency and thanks to the self-healing function ensures the disappearance of minor scratches formed during everyday use.

The elimination of the "orange peel" effect makes the use of the screen more pleasant due to the perfectly smooth surface.

The foil has been enriched with an improved coating that prevents smudges.

It is dedicated to devices with flat and rounded screens - perfectly sticks to the edges.

FEATURES

PROTECTION AGAINST BREAKING

It increases the device's protection against breaking up to even 5 times.

SELF-HEALING (SMALL SCRATCHES DISAPPEAR)

The film comes with the self-healing function, which makes small scratches disappear after ca 24 hours.

INVISIBLE PROTECTION FROM EDGE TO EDGE

The 0,2mm thick film adheres perfectly to the screen and body also around the edges.

PERFECT TRANSPARENCY

The image remains clear, with live colours and the look of the device is unaltered.

PERFECT SCREEN FUNCTIONALITY

It does not affect touch-screen functions.

EASIER REMOVAL OF SMUDGES AND FINGERPRINTS

The anti-smudge coating enhances the comfort of use and makes it easier to keep the screen clean.

LASER-CUT PRECISION

Precise cutting to the shape of the screen with the necessary cutouts for sensors and speakers.

PACKSHOT:

APPLICATION SYSTEM:

EASYAPP® KIT™ is a set of special stickers, included in the packaging, allowing fast and efficient installation of a film or glass screen protector on the screen.
